

The Atom

Sep 8-10:00 AM

Atom.
 - Bohr Diagrams
 - Lewis Dot (dot)
 - Parts. - Nucleus.
 Protons $+$
 Neutrons 0
 Electrons $-$

Feb 6-1:05 PM

Atoms are made out of three basic particles:

Protons - carry a positive charge

Neutrons - carry no charge

Protons and Neutrons join together to form the Nucleus - the central part of the atom

- Electrons - carry a negative charge and circle the nucleus

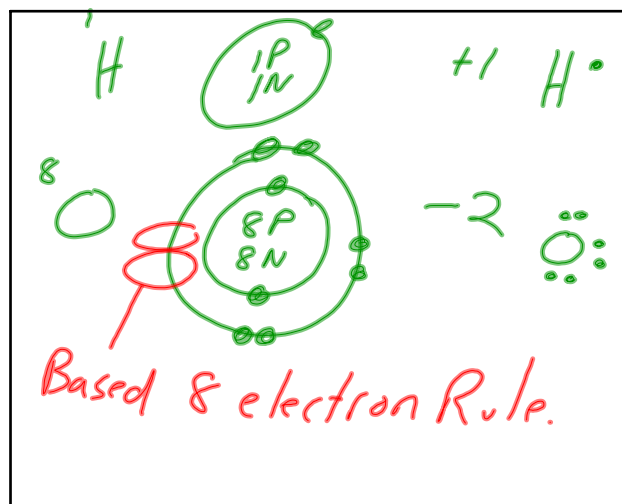

Click on a particle to learn more about it
